SYNOPSIS

WORLD METEOROLOGICAL ORGANIZATION (WMO)

Professor G.O.P. Obasi, Secretary-General of the World Meteorological Organization discusses the important role modern technology plays in predicting weather-related disasters. Communications are vital for governments and communities to take precautionary measures before a disaster strikes. Improving monitoring capabilities of Third World countries is crucial to avoid future disasters.

"WORLD CHRONICLE" is produced by the Information Products Division, Department of Public Information, United Nations, New York, NY 10017, U.S.A.
