REFORMING THE UNITED NATIONS

Is the United Nations the most reformed organization in the world? Disagreement has long raged over what kinds of reforms we needed for the world organization and for what purpose. The current Secretary-General Kofi Annan has moved to simplify and rationalize organizational structures. Have we now arrived at the end of the reform period at the United Nations? Or is there more to come? In this edition of **World Chronicle,** Joachim Muller, editor of the book, "Reforming the United Nations, The Quiet Revolution", talks about the challenges facing the organization in the 21st century.
